

Albert's Monthly Newsletter.

February Issue. 01/01/1990.

Monthly Note By R. Prime

Hello and welcome to Albert's monthly newsletter. This newsletter is a small magazine that is designed to fit in between the new Bi-monthly magazine I'm producing. The general idea about this newsletter is just to tell you what is happening in the Einstein world, as well as giving you information about the next full 30 page magazine. I hope to start covering other computers, and I may start doing that next year, of course I will welcome any letters concerning this idea.

This Month.

There isn't a lot happening this month on the Einstein scene, with no software released, and no shows (Even for other computers!), so if you want to go out and about with your Einstein, you won't want to do it this month! At this moment I am working on Tubes Version 5, which will hopefully be ready for the April Show (See the March magazine for details).

The March Magazine.

The magazine next month will cost £1, and it will cover all the usual issues and reviews, but I will also present the new Public Domain catalogue, and review some of the software.

An idea.

If you have written any software for the Einstein, I will be willing to swop a whole disc of PD for it. The software may be written in any language, Basic or otherwise, and it may use any combinations of drives, printers or whatever it needs. The programs should be sent on a 3" disc, and they must have either a Document file on the disc, or some printed instructions. For more details phone me on Leighton Buzzard (0325) 210868 or write to:-

Roy Prime
Beds & Bucks Computer Group

Tilsworth,
Leighton Buzzard,
Beds. LU7 9PR.

Please note. From February the first the Public Domain catalogue is suspended, so please DO NOT send any discs, or if you do, expect long delays.

I wish you a good month!

Roy Prime. Chairman.

Bargain Basement

Key. *Shand* Means a piece of second hand hardware or software which has been tried and tested o.k

NEW Means a new piece of hardware or software, and contains a 3 month warranty.
